

Postdoctoral Researcher – Nanostructured Materials and Devices University of Kansas – Lawrence, KS, USA

The University of Kansas department of Physics & Astronomy is seeking a Postdoctoral Researcher in the field of thin film, nanostructured materials and their applications in devices. Initial one year limited term, with possibility of renewal annually for subsequent four years.

Requirements consist of:

- Ph.D. in Chemistry, Chemical Engineering, Electrical Engineering, Physics, or closely related field.
- Experience with devices of thin films and nanostructured materials.
- Experience in synthesizing and optimizing nanostructured materials and thin films for sensor and solar cell applications.
- Excellent written communication skill as demonstrated in application materials and publications.

Review of applications begins on April 10, 2015 and will continue until a qualified pool has been identified. For a complete job description and to apply go to <http://employment.ku.edu/staff/3028BR>.
